

Levron James P. Matugas

FULL STACK DEVELOPER | MACHINE LEARNING ENGINEER

Davao Region, Philippines | 09563477585 | levronmatugas@gmail.com | [Portfolio](#) | [GitHub](#)

EBSU-STEP Scholar and Computer Science student specializing in backend architecture and machine learning implementation. Experienced in designing decoupled systems using Laravel and Node.js, alongside deploying optimized computer vision and NLP models to cloud platforms. Driven by translating complex algorithmic rationale into responsive, production-ready software solutions.

EDUCATION

University of Mindanao (Main Campus) 2023 - Present

Bachelor of Science in Computer Science

Colegio de San Ignacio 2017 – 2023 STEM Strand

SKILLS

- **Languages:** Python, PHP, Java, SQL, HTML5, CSS3
- **Frameworks & Tools:** Laravel, Node.js, TensorFlow, Keras, OpenCV, Streamlit, REST APIs
- **Databases:** MySQL
- **Dev Tools:** Git, GitHub, VS Code, XAMPP, Postman
- **Design & Focus:** Figma, UI/UX Wireframing, CNN, RAG, Fine-Tuning
- **Interpersonal Capabilities :** Analytical Problem-Solving, Team Collaboration, Technical Documentation, Adaptability

PROJECTS

AI Question Filter Agent | Python · NLP · Streamlit Lead AI Developer

- Designed an automated text filtering agent utilizing natural language processing architectures to parse, evaluate, and categorize incoming user queries in real time.
- Conducted system validation benchmarks to ensure high precision and low latency during live conversational processing.

Human Facial Expression Recognition | CNN · TensorFlow · Streamlit *Machine Learning Engineer*

- Engineered and trained a custom Convolutional Neural Network (CNN) model leveraging the FER-2013 dataset to deliver automated image-based emotion classification.
- Deployed an interactive web interface using Streamlit, incorporating optimized image pre-processing pipelines for real-time model inference.

MAV-System | Laravel · Node.js · MySQL *Project Manager & QA Tester*

- Oversee the lifecycle of a multi-module web ecosystem, coordinating development objectives and technical milestones for a team of peer developers.
- Formulated comprehensive black-box functional testing frameworks and deployment verification checklists to isolate structural bugs prior to production release.

SEMINARS AND TRAININGS

Internship Seminars June 2026 • Office Etiquette, Work Ethics, Gender & Sexual Harassment Awareness, Mental Hygiene

Industry Integrations Sept 2025 • Software Quality Assurance in Modern Practice

Industry Educational Tour (Manila) April 2026 • Audited engineering workflows and technical infrastructure across five major tech corporations.

LEADERSHIP & ORGANIZATION

Arevdi AI — Development Team

Project Manager 2026 — Present

CERTIFICATIONS

- IT Specialist – Databases | Certiport (Pearson VUE) | May 2025
- IT Specialist – Java | Certiport (Pearson VUE) | March 2024
